## TABLE OF CONTENTS

### Introduction

Background .....	i
Questionnaire, Parent Consent, and Survey Administration .....	i
EXAMPLE: How to Read a Table .....	ii
Key Definitions .....	ii
Considerations When Using the Report .....	iii
Technical Assistance .....	iii

### Demographics

Table 1. Demographics and Response Rates .....	1
--	---

### Body Weight

Table 2. Percentage of students who self-described themselves as slightly/very overweight .....	2
Table 3. Percentage of students trying to lose weight .....	3

### Physical Activity

Table 4. Been physically active 60 minutes on 5+ days during past 7 days.....	4
Table 5. Been physically active 60 minutes on none of past 7 days.....	5
Table 6. Been physically active 60 minutes on all of past 7 days .....	6
Table 7. Watched TV 3+ hours on average school day .....	7
Table 8. Have 3+ hours computer screen time on average school day.....	8
Table 9. Have 3+ hours/day of total screen time on average school day.....	9
Table 10. Attended PE class 1+ days in an average school week .....	10
Table 11. Played on 1+ sports team in past 12 months.....	11

### Nutrition

Table 12. Ate fruit 1+ times/day during past 7 days .....	12
Table 13. Ate fruit 2+ times/day during past 7 days .....	13
Table 14. Ate vegetables 1+ times/day during past 7 days.....	14
Table 15. Ate vegetables 2+ times/day during past 7 days.....	15

Table 16.	Drank soda 1+ times/day during past 7 days.....	16
Table 17.	Ate breakfast on all of the past 7 days .....	17

### Bullying

Table 18.	Ever been bullied on school property.....	18
Table 19.	Ever been electronically bullied.....	19
Table 20.	Been teased or name called because of perceived sexual orientation in past 12 months.....	20

### Safety/Violence

Table 21.	Among bicyclists, those who never/rarely wore bicycle helmet.....	21
Table 22.	Never/rarely wore a seat belt when riding in a car .....	22
Table 23.	Ever rode in a car driven by someone who had been drinking alcohol .....	23
Table 24.	Ever carried a weapon, such as a gun, knife or club.....	24
Table 25.	Ever been in a physical fight .....	25

### Mental Health

Table 26.	Felt sad or hopeless almost every day for 2 weeks in a row in past 12 months .....	26
Table 27.	Ever seriously thought about killing themselves .....	27
Table 28.	Ever made a plan about how they would kill themselves .....	28
Table 29.	Ever tried to kill themselves.....	29
Table 30.	Most likely to talk to parent, teacher, or other adult when feel sad, empty, hopeless, angry, or anxious.....	30
Table 31.	Have an adult to go to for help with a serious problem.....	31

### Tobacco

Table 32.	Ever tried cigarette smoking .....	32
Table 33.	Smoked a whole cigarette before age 11 .....	33
Table 34.	Smoked cigarettes during past 30 days .....	34
Table 35.	Smoked cigarettes on 20+ days of past 30 days.....	35
Table 36.	Among students who were 16 years old or younger and current smokers, usually got their own cigarettes by buying them in a store or gas station during the past 30 days.....	36

Table 37.	Feel it would be sort of easy/very easy to get cigarettes.....	37
Table 38.	Think people risk harming themselves by smoking 1+ packs/day.....	38
Table 39.	Think parents would feel it is wrong/very wrong if the student smoked cigarettes .....	39
Table 40.	Ever used an electronic vapor product.....	40
Table 41.	Ever smoked cigarettes or used an electronic vapor product.....	41

### Alcohol

Table 42.	Ever had a drink of alcohol, other than a few sips .....	42
Table 43.	Had first drink of alcohol other than a few sips before age 11 .....	43
Table 44.	Drank alcohol during past 30 days.....	44
Table 45.	Had 5+ drinks of alcohol in a row during past 30 days .....	45
Table 46.	Think a typical student drank alcohol 1+ days in past 30 days.....	46
Table 47.	Think typical student binge drank alcohol 1+ days in past 30 days.....	47
Table 48.	Think access to alcohol is sort of/very easy.....	48
Table 49.	Among current drinkers, those who usually got alcohol from someone who gave it to them during the past 30 days.....	49
Table 50.	Among drinks in past 12 months, usually drank in public setting, on school property, or riding in car in past 12 months.....	50
Table 51.	Think people have moderate/great risk of harming selves if drink 1-2 drinks almost daily .....	51
Table 52.	Think it is wrong/very wrong for someone the student's age to drink alcohol regularly (at least once or twice a month).....	52
Table 53.	Think parents feel it is wrong/very wrong for the student to drink alcohol regularly (at least once or twice per month) .....	53

### Marijuana and other drugs

Table 54.	Ever used marijuana .....	54
Table 55.	Tried marijuana before age 11 .....	55
Table 56.	Used marijuana 1+ times in past 30 days .....	56
Table 57.	Think access to marijuana is sort of easy/very easy.....	57
Table 58.	Think people risk harming themselves from using marijuana regularly .....	58
Table 59.	Think it is wrong/very wrong for someone the same age to use marijuana.....	59

Table 60.	Think parents feel it is wrong/very wrong if the student to used marijuana.....	60
Table 61.	Ever sniffed glue or used inhalants.....	61
Table 62.	Ever taken a prescription drug without a doctor’s prescription .....	62

Substance Use Prevention

Table 63.	Talked with parent about dangers of tobacco, alcohol, or drug use in past 12 months .....	63
Table 64.	Heard, read, or watched prevention advertisements about tobacco, alcohol, or drug use in past 12 months .....	64

School & other health topics

Table 65.	Described grades as mostly A’s and B’s over past 12 months.....	65
Table 66.	Participate in extracurricular activities at school .....	66
Table 67.	Think it is important to go to college.....	67
Table 68.	Ever been taught about AIDS/HIV at school.....	68
Table 69.	Ever been told by a doctor/nurse that they had asthma .....	69

# Understanding Healthy Kids Colorado Survey

## School and District Reports

### Background.

---

The [Healthy Kids Colorado Survey](#) (HKCS) collects anonymous health information from middle and high school students throughout the state. HKCS is conducted during odd-numbered years, most recently in the fall of 2015. More than 40,000 students in 252 middle and high schools participated in the fall 2015 survey. The questionnaire measures a wide range of health behaviors and things that affect a student's health, including physical activity, nutrition, health care, bullying, mental health, tobacco and substance use, sexual health (high school only), and family and school protective factors. HKCS is supported by the Colorado Department of Public Health and Environment (CDPHE), Colorado Department of Education (CDE), and Colorado Department of Human Services (CDHS). The survey is administered from the University of Colorado Anschutz Medical Campus by the Community, Epidemiology & Program Evaluation Group (CEPEG).

### Questionnaire, Parental Consent, and Survey Administration.

---

The majority of HKCS questions are drawn from the Centers for Disease Control and Prevention (CDC) Youth Risk Behavior Surveillance System, the nation's largest adolescent health survey, which has been ongoing for more than 20 years. Other questions in HKCS have been added with community input to meet additional data needs in Colorado.

The questionnaire is available in English and Spanish and takes about 45 minutes, or one class period, to complete by paper and pencil. Teachers are given a script to read to students that emphasizes the anonymous and voluntary nature of the survey. Parental consent procedures are followed according to each district's guidelines, with a minimum of two weeks notification in advance of the administration date.

There are two versions of the high school questionnaire, called "modules," that have an identical "core" set of questions plus additional questions unique to each version. This approach allows more information to be collected while limiting the survey length. Modules A and B contain 107 and 108 questions, respectively. The modules are randomly distributed, so roughly half the students in each classroom complete Module A and half complete Module B.

The middle school questionnaire contains 68 questions that are age-appropriate for younger adolescents, and the shorter length allows students more time to answer each question. Classrooms are ineligible to participate if the students are unable to complete the survey in English or Spanish or because

of disabilities. If a parent chooses not to allow their child to participate, or if the student declines to participate, they are asked to sit quietly at their desk and work on other school work.

HKCS selects a sample of schools to represent the state of Colorado. Within selected schools, a sample of classrooms were selected to participate in order to minimize the time commitment from schools. The HKCS was also available to other schools at no cost to participate as a new opportunity in 2013. Many schools chose to participate in order to receive local data to track important health behaviors and protective factors.

## EXAMPLE: How to Read a Table.

**A. Health behavior**    **B. Estimate**    **C. Total number of student responses**

**2015 HEALTHY KIDS COLORADO SURVEY RESULTS (Weighted Data)**  
**XXXXX High School Report**

Number of Responses: 174

Table 6. Among students who rode a bicycle during the past 12 months, the percentage who never or rarely wore a bicycle helmet

		Percentage (%)	95% CI
	Total	85.5	( 80.4 - 90.6 )
<b>Gender</b>	Male	85.8	( 78.4 - 93.3 )
	Female	85.0	( 77.4 - 92.5 )
<b>Grade</b>	9th	81.7	( 67.3 - 96.2 )
	10th	89.1	( 81.2 - 97.1 )
	11th	85.8	( 84.3 - 87.3 )
	12th	85.7	( 78.5 - 92.9 )

**D. Confidence interval**

- A. Health behavior** includes the Table Number and a description of the behavior being reported.
- B. Estimate or Percentage:** Percentage of students who reported a given behavior or answer. A period (.) appears whenever results meet the suppression criteria and are not shown to protect student confidentiality.
- C. Total Responses:** The number of students in the school or district who answered the question being reported. Some students may have chosen to skip some questions, for a variety of reasons.
- D. 95% confidence interval:** These numbers define the range that most likely contains the true percentage for your school or district. These intervals are also called “margins of error” and indicate the precision of the estimate – a larger range indicates less precision, a smaller range indicates more precision.

## Key Definitions.

---

**Weighting:** The results in the current report are adjusted (“weighted”) so that the answers can represent all students in your school or district. The process of weighting takes into account each participating student’s probability of selection and matches the participant group to the total enrollment by grade, gender, and race/ethnicity.

**Response Rates:** Response rate is the total number of students who participated in the survey divided by the number of students randomly chosen to take the survey within a school or district. Generally, the higher the response rate, the more confidence that the survey results reflect the student population. Student response rates of 80% or higher are very desirable and increase confidence that the results are representative of the entire student population.

**Confidentiality:** In order to protect confidentiality, student responses are not released if they might allow someone to identify individual students. A period (.) appears whenever results meet certain “suppression” criteria used to maintain confidentiality. Our suppression criteria include results of 0% or 100%; results where the numerator has 3 or fewer students (e.g., the number of students who answered ‘yes’), or the number in the denominator is 30 or fewer (e.g., the number of students who answered the question).

## Considerations When Using the Report.

---

The results of your school or districts can be compared to the state or regional estimates. When comparing a school or district estimate to a regional or state estimate, examine the 95% confidence intervals. If they overlap, there is no scientific evidence to believe the estimates are different. If they do not overlap, there is high confidence that the estimates are different (“statistically significant”). For statistically significant differences, judgment is needed to decide whether the size of the difference is meaningful and important.

## Technical Assistance.

---

The Healthy Kids Colorado Survey team can help you:

- **Understand your report.** We are happy to meet or talk with you about any aspect of your report including understanding the nuts and bolts to identifying the most important indicators
- **Conduct additional and customized analysis of your data.** We are happy to talk with you about custom analysis. Please note that additional analysis can sometimes be limited based on the sample size. As a general rule of thumb, if there are fewer than 100 respondents, there are a

limited number of categories that can be used to look at results. Several hundred respondents are typically necessary for estimates with smaller subgroups. Therefore, custom analysis may be possible with district-level data but not always with school-level data.

- **Prepare a presentation of the data.** We can create a customized Power Point presentation according to your needs.
- **Present or co-present your data.** We are available to travel to your location or be available by webinar/teleconference.

Copies of the middle school survey and both modules of the high school survey can be viewed [here](#).

For further assistance please contact the Healthy Kids Colorado Survey team at [hkcs@ucdenver.edu](mailto:hkcs@ucdenver.edu).

## 2015 HEALTHY KIDS COLORADO SURVEY RESULTS

### Ouray County Community

2015 Response Rate = 82.9%

**Table 1. Sample Demographics and Response Rate**

Demographic	Number	Number/Total Sample
Total	102	100%
